Editing

Modify **every** unique embellishment to match your layouts with 'see what you print' on screen live editing.

- 10 sizes to adjust (100s of possibilities with paper sizes)
- 1000s of Colours - Change the colour of petals or a butterfly wings without effecting the centre or body.
- 100s of Hues (Blends)
- Adjust saturation - from black and white to intense colour
- Adjust Contrast - to intensify the shading
- Duplicate your modified elements to create subtle group changes

Printing

- High Quality printing
- Print on any size of page or any type of printable paper. Try special papers such as magnetic or transfer to create fridge magnets, or T-shirt designs. (printer depending)
- Print only what you need, when you need it... make your craft pound or dollar stretch a lot further!

General

- Wings & Flowers is for Windows 98 SE, ME, XP and Vista
- Multi layered embellishments for you to build that really stand out on your pages
- Little Big Trees' LIVE program gives you access to ideas, news, video tutorials, plus loads more, and is regularly updated. (LIVE is built in to Wings and Flowers, and can be accessed at any time with a click of a button!)

- Exclusive access to free bundles, made available regularly to owners of Wings and Flowers increasing the categories and bundles already on the disk.
- Great for scrapbook layouts, card making, ATCs, altered arts, hanging mobiles, and many more
- Getting started tutorial video that gives you a crash course in using the Wings and Flowers software
- Comprehensive Help that covers every aspect of the software
- Easy to use, and lots of fun!

Using the software

Print black and white flowers, leaves and butterflies on patterned paper to give them your own particular twist

Make your craft as simple or complex as you want it to be

Anything you don't use after printing can be kept in your stash for use another time
